Attachments: DOC011216-01122016144521.pdf; Sheriff Release 2016-01-13.docx

Mayor and team –

Yesterday, Pastor Hughes along with two nieces and a nephew of Michael Marshall and concerned community members came to the Mayor's Office lobby to deliver the attached document.

I spoke with them on behalf of the administration. Their direct requests were for the video to be released to the family and for the Mayor to apologize to the family who was there.

I expressed much of what was outlined in the release the Sheriff Department sent out following the autopsy being made public (attached). I also assured them that we will release the video to the family as soon as we can. Finally, I clarified that the Mayor did call a designated individual of the family following the news of Mr. Marshall's death and we received only communication back from their legal representation.

They indicated that they will be returning every day to the Mayor's Office at 1 pm until their requests are fulfilled. They will also continue their hunger strike.

HUNGER STRIKE PROTEST/ FAST (Monday January 11th - 5:30pm, at the City and County Building) Denver Clergy, Concerned Citizens of Denver. And the Marshall Family are calling on the Citizens of Denver, regardless of Religious affiliation or none, to join in the fight for the release of the Video showing what happened to Michael Lee Marshall at the hands of the Denver Sheriffs Department (DSD). DAY 1

This will be an every day Protest until:

- 1. The video is released.**
- 2. The names of the DSD personnel are released.**
- 3. Assurance via a "Time Table" that DSD personnel working the Mental Health Pod are trained in De-escalation techniques.**
- 4. An audience with Mayor Michael Hancock with the Marshall family where his condolences are personally delivered.**

Mayor Hancock, we are appealing to your humanity and Faith background, especially as an Ordained Deacon in the Baptist Faith tradition to be a man of integrity, and honor your words you promised the City and County of Denver Citizens for Transparency in these types of matters after the Hilliard Hienz report was released.

We Denver Clergy, Concerned Citizens of Denver are prepared to continue this Hunger Strike until you release the tape, even at the risk of our own peril. It is our hope, and prayer that you reconsider releasing the tape prior to the completion of the Investigation, as we believe no compromise will take place.

Response to release of Michael Marshall autopsy report

DENVER, CO – Today the Denver Office of the Medical Examiner completed its autopsy report in the Michael Marshall case. Mr. Marshall was an inmate who died at the Downtown Detention Center on Nov. 11, 2015.

After reviewing available evidence, listening to witness accounts, and reviewing Mr. Marshall's medical records, the Denver Office of the Medical Examiner determined the cause of death was complications of positional asphyxia to include aspiration pneumonia due to being physically restrained by law enforcement during an acute psychotic episode. The manner of death was determined to be homicide.

Sheriff Patrick Firman said: "This is a tragedy for both the Marshall family and the deputies involved. The numerous city agencies involved, including the Denver Sheriff Department, remain committed to an accountable and thorough investigative process. We received the report this morning and will examine it closely while we wait for the Denver Police Department and the DA's office to conclude their reviews."

It is important to note that the Medical Examiner's designation of Mr. Marshall's death as a "homicide" is not a determination that a criminal act took place. The District Attorney's (DA) office will make that determination at the conclusion of its investigation.

The Denver Police Department investigates in-custody deaths that occur in Denver's jails and detectives have worked diligently to obtain statements from the deputies involved in the incident, those who responded to it, those who witnessed the incident, and from the inmates housed in the area in which the incident occurred. Detectives have also conducted numerous interviews and they are in the final stages of the investigation.

The District Attorney's (DA) office – which reviews in-custody death investigations – received a copy of the autopsy report this morning and is reviewing the case to determine if criminal charges are warranted. Once the report is thoroughly reviewed, other evidence in the case will be evaluated in light of the information contained in the report. It is possible that the autopsy report will result in additional follow-up investigation.

Once the DA's review is complete, and depending on the results of that review, the case will be turned over to the Sheriff Department for an internal, administrative review – with oversight from the Executive Director of Safety's office and the Office of the Independent Monitor – to determine if departmental rules and regulations were violated.

While this process continues, the deputies involved in the incident remain in alternative assignments that do not involve contact with inmates.

The city has maintained and will continue consistent communication with the family of Mr. Marshall's

All -

For update purposes, please be advised that a group of approximately 12 members assembled in front of City Hall at 1:00pm along with Brother Jeff, who video recorded their communication. At 1:20pm a member of the Marshall team came in requesting a meeting with the Mayor and for the Marshall videotape to be released. Brianna communicated our scheduling protocol. The gentleman, again, requested to speak with the Mayor and Brianna kindly and professionally reiterated our protocol. Upon doing so, the gentleman left the office and the assembled team in front of City Hall dispersed shortly thereafter. That's all for now!

Subject: Michael Marshall case

Dear Daelene and Simon,

I have a few questions on deadline for a story I'm writing on the Michael Marshall case, please.

It has come to my attention that Sheriff Firman has said the deputies involved in the altercation with Mr. Marshall have been allowed to see the video of it. This is raising questions given the administration's professed commitment to not impede the investigation. Critics are saying that if anybody shouldn't be shown those videos for the sake of not impeding the investigation, it's the deputies. Can you respond to that, please?

The administration has committed to "full transparency" around the case. It has been two months since the incident that killed Mr. Marshall. The autopsy report is released. How does the administration's continued refusal to release the video constitute transparency? Also, what is the administration's response to the fact that some 200 people are hunger striking until the video is released?

The city received a letter from the family's lawyers yesterday accusing Mayor Hancock of trying to circumvent the legal team. They called his efforts "serious and indefensible." Please respond. Please also respond to the fact that, at the time Mr. Marshall was still alive in the hospital, Denver Police Homicide Detective Jamie Castro told the Marshall family members they should not hire legal counsel at all because in his opinion they did not "need" any legal advice, and that he would protect their interests.

As I indicated, I'm on deadline with this story. Please respond as soon as possible.

Thank you.
