Dear Governor Dalrymple, I am writing to you to express my outrage regarding the dogs that were used to attack peaceful protesters at the Dakota Access Pipeline Land Area. This kind of barbaric use of these animals on these Native Americans and those who are in solidarity with them to protest and protect their land against this outrageous attempt to drill through their access to water, is nothing more than utterly outrageous and unacceptable! Men, women, children, and horses were attacked by these savage dogs and their controllers could barely keep them contained! Is this the kind of public awareness campaign you want to have the people of the US see for your state! I'm sure it must be really great for tourism! North Dakota running down Native AMericans and fellow Americans in a bid to capture the Natives land to run an oil pipeline through their water reserves! You and the company that is doing this should be ashamed or yourselves! Is the money really that much more important to you than the water that you drink? Step in and take hold of this situation and stop these drillers now! And maybe I'll come back to your state one day!

Sir, just what exactly are you allowing to happen in Standing Rock? How can you allow Dakota Access to continue work with a suit pending in U.S. District Court? How can you stand by and let peaceful protestors be attacked by security using mace and attack dogs? Why were there no Police Officers present when the attack occurred when they have been there EVERY other day? Why is there no news coverage? What are you trying to hide? Why are you not listening to the United Nations Permanent Forum on Indigenous Issues when they say the Dakota Access oil pipeline's route was mapped out without adequate consultation and is a threat to security and drinking-water access for not only the Standing Rock Sioux Tribe but also for millions of people living downstream from the Missouri River? This is very suspicious to me. Is this the kind of leader you are? Have you no soul? This must stop immediately. It is unconstitutional and illegal.

Dear Governor Dalrymple: I see that you are concerned with the public's safety during the protest at the Standing Rock Sioux reservation. Thank you. By now, you probably know that some people have been pepper sprayed and bitten by dogs. I look forward to you fulfilling your vow to keep people safe. I feel that you will also think of public safety in the future, and vouchsafe the water supply against oil leaks such as the Enbridge Energy pipeline that spilled 843,000 gallons of oil into the Kalamazoo River in Michigan. That spill cost over a billion dollars to clean up according to Inside Climate News. I encourage you to remember the wisdom of the Iroquois Nation, that in every deliberation, we must consider the impact on the seventh generation. In their Constitution it says, "With endless patience you shall carry out your duty" and "return to the way of the Great Law which is just and right". Blessings on you and your loved ones. Thank you for your wisdom.

I don't understand why neither you nor the north Dakota congressional delegation won't sit down and meet with Tribal President and leaders of the Standing Rock Tribal Nation. I live in South Dakota but still can't believe how far our cultures are still apart. Study our traditions, especially the concept of Wolakota. It refers to peace and harmony but means so much more than that. The so called "protesters" as I see them are doing there utmost to conduct themselves under that belief. The mace and release of dogs is a public demonstration of a racist assault, a deliberate provocation and a cowardly and unnecessary act.

Today it is in the news that protestors against the DAPL pipeline are being attacked with pepper spray and guard dogs. These attacks are apparently mounted by private security employed by DAPL. State forces should be deployed immediately to protect the protectors of the earth. A court decision on the permitting is expected on September 9. All construction activities were supposed to be delayed until then. Yet construction activity is continuing, and protestors are being injured. You may think this project is a good idea, though I do not understand how anyone could support a pipeline of this nature given the route of the project and the poor performance record of pipelines, especially where critical water resources are at risk. Whatever your views on the project, I would hope that these attacks on your citizens are unacceptable and that you will assure that they are immediately stopped. The issues here are critically important, especially given what appears to be a faulty permitting process, and the tribal people and other protestors must be protected.

I cannot believe you have issued police with dogs to a peaceful protest! Your actions on this matter are deplorable. I am so saddened by all that have been done to these people. Still 500 years later, it is still happening, and for what? Cheaper gas, easier access to oil? What are you benefiting by doing this? We are all going to stand up, you keep up not listening to the voices that are sounding off stronger than ever. Why do you want to take the chance on destroying this watershed? I live in Michigan, Enbrdge has a pipeline running through our rivers, and the Straits of Mackinaw. Go look Mr governor at what happened in Kalamazoo River. It will never be the same. I am just sickened by this disregard for human life. We are not going to take this sitting down, I hope you know that. Love and peace to you and yours. I hope your children wont mind drinking oil and eating money, because that is all there is going to be left, if we keep this up. Thank you for your time.

Hello Sir I am emailing you in regards to the ongoing protests being made by Native Americans in North Dakota who DO NOT WANT the dakota access pipeline running through their lands! These people have been subjected to years of land theft, lies, murder, genocide, rape, and all kinds of other horrible things why are you allowing a greedy coporation to ruin what little bit of land they have left that has not been stolen by the government? You must do the RIGHT thing! Money cannot buy clean water or clean air! We have alternative energy resources we must learn a better way to sustain ourselves without ruining land or polluting water. Oil pipelines are usually always faulty! Stop the destruction to mother Earth!

Please do everything you can to block the Dakota pipeline and provide protection for the peaceful protesters using their Constitution rights to protest without fear of being endangered. Water is, a essential natural resource that we should do everything to protect. As a person who participated in the cleanup of oil after the Santa Barbara oil spill, I'm convinced that the risk to our water supply is too great to support the pipeline.

Lt. Governor Wrigley, I just watched a video on Facebook of the Standing Rock tribe being attacked by the big oil company's private security force using vicious attack dogs. This angers and saddens me at the same time that YOU would allow this to happen in your state. The is the UNITED STATES OF AMERICA!! Citizens should NOT be attacked by corporations this way. This makes you, the police force and the state of North Dakota look very bad. Charges should be filed against these persons with the dogs and the company that employs them. Several people were actually bitten and the bloody pictures are on Facebook as well. If that would of been a regular citizen walking their dog and it attacked someone, they would be liable. Why is it any different if a corporation employs people to do it? This madness MUST STOP!! The world is watching and it doesn't like what it sees. Please, do the human and moral thing. Stand up for what is right!!! Thank you for your time. Kim Glomski

The disregard of the Native Americans is shameful. The Dakota Access pipeline should not continue. From what I have read, there seems to be "irregularities" in agencies granting approval. The attack on protesters using chemicals and dogs should result in charges against Dakota Access. The citizens movement will take the country back from corporate control. Please be a leader for the people.

pipeline protesters

Comments

Dear Governor Dalrymple, I realize that I am a New Yorker, and that the press coverage I get about what is happening in North Dakota may be skewed. However, I am quite distressed about what is happening to the Native Americans are protesting against the pipeline. I realize that there is bound to be some conflict: developers want to develop and the protesters are standing in their way. But the violence that is being permitted is wrong. You and I both know that there are peaceful ways of handling negotiations. Is there nothing the state government can do in this situation? The Native American protesters have so many concerns which seem appropriate to discuss: cultural, environmental, territorial. Dogs and pepper spray don't seem to be the right response. I hope you can intervene in some way that will help find a reasonable solution to the developers' wishes and the residents' objections without allowing people to be attacked again. Thank you for your attention to this issue. Sincerely, Margaret Kelliher

Put a halt to these protesters being harassed and harmed. Stop this big business from trying to act like it's the wild west and they can bully. We, Americans, are tired of the trite nonsense. Become the world leader in wind power and stop the damage we are doing to our country and planet.

Comments

As Governor of N. Dakota, please take the well-being and cause of the 'Red Warrior Camp' protestors to heart. Even if you do not agree with their position, please be a supporter of fair and impartial treatment to these people who are sacrificing to ensure the safety of their resources. The pipeline is 'Big Oil' - haven't we all lost enough to this industry? One cannot deny that it is economically unfair: all the largest oil companies have huge billion dollar profits - that has always been true. I beg you with all my heart, to please call off the attack dogs and refuse access of the private security people to the protest site. I worry greatly that they will escalate a committed peaceful protest into violence and serious harm to innocent people. Please take care of these protestors. Thank you kindly for your consideration, S. Larsen

Dear Sir, I write to express my concern for the treatment of the people of the sacred stone camp in the protests of the DAPL. These people have always had a respect and love for the earth and are trying to protect it from damage caused by corporate greed. They do not want anything for themselves, but are merely trying to prevent destruction of the water supply of millions of people and wildlife. This water is not owned by the corporation which is threatening its safety, and that the oil is fracked shows their lack of concern for the environment. I believe the Native American's who are trying to keep the water safe should be given every assistance and support from the government, but instead, are being attacked by dogs and maced. I ask that you consider the environment we will leave for future generations, including your children, grandchildren and etc, and support these people. It would be hard to explain to them how their ancestors were more concerned with making money that leaving them an uncontaminated water supply. Sue Willis, Australia

I urge you as a friend and ally of the native peoples in the US to cancel the state of emergency you have places upon the attendees of the Dakota Access Protests, as well as lifting restrictions on access to water, travel, and any other measures taken to put hardship on these people. They have the right granted by our Constitution to do just what they are doing, free and unrestrained. They have the right to protest against a commercial venture that puts environmental risks on their land and drinking water as well as using that land without their permission or compensation. Your attempts to break up this protest is wrong. Please stop all attempts to hinder and suppress what they are doing.

Governor Dalrymple, I am writing in regards to the State of Emergency you just issued in North Dakota. I have been following the news surrounding the Access Pipe Line, and through peaceful protest the public has demanded their voice to be heard and action taken that reflects their demands. As a young American citizen I want to know that my voice can make change, that is why I am reaching out to you. I also want to know that elected officials can be trusted to do their job. You represent your constituents sir. Stop waging war on our Native American communities and leave office with a legacy that stands up to corporate interest and heeds the voice of democracy. End the State of Emergency and stop the Access Pipeline.

Comments

It is time for you to formally sit down with the members of the Standing Rock Sioux Nation, and with the other over 50 tribal nations that are in support of Standing Rock, and listen to their concerns. Their plight is real. Their concerns are legitimate and based on treaty law. I don't see how you can in good conscience let this rightful protest continue without you trying to come to a resolution that honors the treaty rights of a nation. Cutting off their water, setting up a blockade, and then supporting negative biased reporting of violence will not make this rightful protest go away. I, for one, see no reason for you to support the invasion of the Standing Rock Sioux Tribal lands. So much of our land has been pillaged from us. We were placed on the poorest of lands, through treaties, deemed unimportant by the white people, and now that you have taken all that you can, and refuse to give up your lands (ranchers, farmers), and you want the little that was given to us. Eminent domain need not apply here. You are the leader of the State of North Dakota, and it is time for you to lead. Please convene a meeting with your office and the federal agencies that are applicable, and listen to the people. Honor the treaties! Respectfully submitted by, Valerie DeCora Guimaraes member of the Ho-Chunk Nation

I can't believe that this is my country these days . . . Rigging elections . . . Controlling media. I feel like we all live in Russia. Have we not as a nation mistreated these people enough. They have a right to protest what's going on. If I lived closer, I would be standing with them. Are we trying to kill this nation???? Water is the main source of life. We're hearing that their water was turned off. I live in NJ and I pray that this is just misinformation. Otherwise, if it is true, this is downright evil. I ask that you turn the water back on. We are should be concerned about our water supply. You should be thanking the Indians for their desire their protect THEIR land and resources. If this is right, SHAME on you.

Read Lt. Gov. Wrigley's statements on the "unlawful" pipeline protest. What a load of doublespeak. Hope no one is stupid enough to believe it. The pipeline is wrong and you know it. Solidarity with the protestors. I've been following this story since there were only 200 and now there are 4000+ representing 90 tribes and Black Lives Matter has joined the protest. You are no more going to win this than Shell won against the protests on drilling in the Arctic. Expect GreenPeace and The Sierra Club and Earth First to join the protests. I for one will donate to their defense funds if you make further arrests. You are on the wrong side of history and it will be remembered.

As usual white christian americans solve their problems with guns. I hear you have given the order to stop the protests by the natives to stop the oil pipeline from going through their land. Emergency declarations. That is funny. The emergency is the oil gods want money. There seems to be no understanding of the plight of the native peoples for clean and safe water and land. Husky Oil pipeline burst in north Saskatchewan. River is polluted, was a source of drinking water, Husky said they'll get round to it on Monday a week after spill. This is how white, christian oily people work.

I've read what few articles I can find about the protests currently going on in your state. What a sad affair. It's pathetic that you, as a public servant, are willing to sacrifice the ways of an entire culture to line your own pockets. While we as "white america" may not place much worth on the traditions of our ancestors to the Native Americans it is everything. I grew up with Navajo kids that were raised on the reservation. I know what kind of poverty they live in. Our government gave them virtually nothing & now you're trying to take even more. You've called on federal support to help control the acts of violence. Please tell me sir, exactly what are these acts of violence that have been committed? How much violence are you expecting from a group of people that list poise adult diapers for the elderly on their supply list? You've cut off their water supply & removed the medical trailers. HOW DARE YOU?!?! THEY ARE HUMAN BEINGS! Are you just going to passively sit back & wait until you've killed them all off starting with their children? Was your greed really worth selling your soul to the devil?

Hello, Governor Dalrymple. I am writing to ask you to stop the proposed Dakota Access Pipeline. I am sure you are aware of the protests against the pipeline, largely conducted by indigenous peoples. I understand that oil is an important resource; however, so is water, and the pipeline threatens important water sources at the Standing Rock Indian Reservation. Those living on the reservation have a right to control of the land, as well as its water. The pipeline threatens all of this. Please reconsider the pipeline and protect Native American land.

Dear Governor, I live in Illinois, am not your constituent, but am nonetheless deeply concerned about the treatment your citizens are receiving as a result of their peaceful protests to protect their sacred lands and the Missouri head lands on their reservation. Your citizens, sir. They have rights, both legal, historical and human rights. It is your job to protect people, sir. I know it's difficult when interests conflict, but humans should not be denied water and allowed to be attacked by dogs. Sir, this is wrong. You have the protection of oil and mass media, but there are other forms of communication and dissemination of information. Many are watching, waiting to see if you're a pawn, a racist, or a man of honor. Have we not done enough harm to this planet, to these people? They are your citizens, sir. We are watching. Sincerely, Kate Bostrom

The Morton County sheriff's dept. has put out blatantly false reports of violence from the Native American protestors that simply did not happen, and should be made to retract the statement AND issue a public apology. All of the protesters have cellphones and there are numerous videos online showing the private security team hired by the pipeline owners as ones being violent and having attack dogs illegally present. Please investigate this!

Give the protestors of the NDAP access to water immediately! Water is life! You have put them at risk and are causing a health issue. This is an act of terrorism that you have okayed-water is life! You have taken a peaceful protest and turned it into a humanitarian issue! You should be ashamed of yourself for allowing this and anyone else who has allowed or continue to allow this should question their integrity. Shame on you. Step down if you cannot handle this without making the situation worse. Water is not an option or a privilege. Water is a right. Which is exact why this whole protest began.

pipeline protest

Comments

I am dismayed that a pipeline of this magnitude is being built. But I am more upset that it is going through land that is sacred to Native Americans. It is 2016, Native Americans have lost enough to the U.S. Stop this pipeline. Stop harassing protesters.

Removal of water to pipeline protest

Comments

I was horrified and deeply saddened to learn of the removal of water to the Standing Rock Sioux tribe now protesting the Dakota Access Pipeline construction. I support this protest and am inspired by their bravery to stand up for life- theirs, yours, all of our lives. At this point in our evolution as a species we need to shift to renewable energy infrastructure, not build up life harming oil infrastructure. These kinds of life affirming protests are the frontiers of necessary change. Please return their water and heed their wise words.

I live in Oxford, England. Given I have no vote I would imagine my views may mean little to you. I am, though, disturbed, by the way the DAPL protest appears to be being dealt with. Holding back water supplies will, presumably, be effective from your perspective. This is, however, a legitimate protest which will ultimately find itself on the right side of history. By winning you may not immediately be shooting yourself in the foot. Not so sure what service you are providing for future generations though or for your own legacy.

Comments

I just had to contact you to share my disappointment as to how you are handling the pipeline protest. When a protest infringes on my freedoms such as access to campgrounds, boat ramps and a complete highway it is wrong. Where were they during the public comment period. I won't go into the merits of a pipeline from a safety or an environmentally friendly standpoint. I am really disappointed in how you are catering to this protest. You are putting our law enforcement people at risk and empowering the protest. I am very much for the right of the people to state their belief as long as it does not interfere with others freedoms. Enough is enough it is time to get control before a riot starts from either side of the argument.

Cutting water to the people protesting the Dakota Access Pipeline is a violation of human rights. The pipeline itself violates Native American treaties and is neocolonialism at its worst. Shame on you. The well-being of America's environment and its Native people comes before a big paycheck.

Comments

Many people have gathered at Standing Rock to protest the Dakota Access Pipeline because they care about clean water. They know pipelines fail, and for this reason, an oil pipeline under the Missouri River is a disaster in the making. The protesters are acting on behalf of all human beings by standing up for clean water. Water is life. Please return the water tankers to the people who working to protect us all.

Comments

"The State of North Dakota remains committed to protecting citizens' rights to lawfully assemble and protest, but the unfortunate fact remains that unlawful acts associated with the protest near Cannon Ball have led to serious public safety concerns and property damage," Gov. Dalrymple said. As far as I know, this had been a peaceful protest with a couple of arrests but nothing of true violent nature and no mention of property damage. I'd like to know what "unlawful acts...have led to serious public safety concerns and property damage," and if so why would the state health departments emergency resources be pulled out? Wouldn't they be needed even more? Because to me, this sounds like the government of North Dakota is trying to pull lawful assistance to the protesters in hopes that they will give up and allow the pipeline to push through. If so I think is a cowardly act by the government which hasn't been able to use the law and instead tries to get its' way through sneaky and underhanded means. So I would like to know what offenses have occurred that would require the pulling of the Department of Health's assistance.

Governor Dalrymple, I'm writing as a registered member of the Choctaw Nation to voice my support for those protesting the construction of the Dakota Access Pipeline. I'm writing to ask that you encourage President Obama and the Federal Government to rescind its permit to the Army Corps of Engineers for construction of the pipeline. This risk to tribal water safety posed by the pipeline violates riparian right laid out in the 1851 and 1868 treaties As a concerned U.S. citizen and a member of the Choctaw Nation, I'm calling on you as Governor of North Dakota to encourage the Federal government, the Army Corps of Engineers, and Energy Transfer to do the right thing by immediately and permanently halting construction of the Dakota Access Pipeline. Thank you for protecting the health and safety of the Sioux peoples residing within your state's jurisdiction. With respect and gratitude, Kelsey Brickl

Heavy handed response to protests against the Dakota Access pipeline

Comments

Dear Governor Dalrymple, I am writing to express my concern at the overzealous use of police and other law enforcement agencies in response to the protests against the Dakota Access pipeline. Protestors are entitled to express their opposition to the pipeline and their First Amendment rights must be honored. Law enforcement's only role in the case of a peaceful protest such as this is to make it possible for protestors to express their views. Random roadblock checkpoints, aerial surveillance or other intimidations have no place in a democracy and I urge you to make sure that North Dakota law enforcement officials honor and respect all our citizens, including protestors.

Comments

Dear Governor, I am a supporter of the protests going on in North Dakota, on the Standing Rock Sioux Reservation against the pipeline. Please consider the damage that is being done in other parts of the country when a pipeline breaks. Big oil has been having big problems taking care that no oil spills occur and have failed. Please consider the spills in our oceans. Why does it seem from news reports you don't seem to care about future generations and even our own times and our ability to have clean water? What alternative solutions are there available for energy that doesn't kill the environment. I would like to hear your thoughts. Sincerely, Kat Medeiros-Oropeza

There was a news report stating that guards would be assisting buses to the school because of the protest. I think the media is blowing this out of proportion and/or the people in Bismarck. This is a peaceful protest. Why would the government blow this out of proportion letting people believe they have to live in fear because the Indians are out there? This is a great injustice to the Indian people. Just because there was Wounded Knee umpteen years ago doesn't mean that that will happen again. I just don't believe that the government and/or the media should portray the Indians as violent and combatant.

Good Evening, Governor. I am writing you with the hopes of beginning a dialogue between the people of Illinois and yourself regarding the Dakota Access Pipeline project. Now more than ever, our Corp of Engineers needs to be focusing their training and efforts on the construction of sustainable energy options, not liquifying your lands and turning it into a death roulette. Undeniably, those of us who reside at the terminal end of this pipeline, and those downstream of it along the Missouri are the ones who face the greatest risk. When something goes wrong (not "if"--- ALL pipes fail, in time. Keep in mind the small shocks from fracking expedites the deterioration of all infrastructure around, not just pipes, but bridges, roadways, buildings and homes. I urge you to immediately stop this pipeline (which is classified as a utility), honor the treaties and bills to the Native Indigenous Peoples of your Great State. Understand that your decision to allow this line adversely affects the quality of our water here, and the health of countless citizens in Illinois and everyone who shares the River . Do not put my beautiful family in harms way. I know you would not want someone being so careless if it were your own well-being that was jeopardized by this oil line. The time is now to do the right thing. The people of Illinois stand with the Lakota, against the Dakota Access line, as it is the Natives who are protesting in the best interest of ALL PEOPLES. They have no profit to gain by this intervention. They are being guided by good conscience, and we urge the state and the contractors to do the same. We are reaching out to you in an effort to begin a new path that does not involve poisonous spills, tremors, and unlawful encroachment onto Native lands. Please contact me at your convenience. I can be reached by phone 630.802.8474 Or by email princess_chameleon@yahoo.com Thank you for your time and consideration on this matter. Sincerely, Dawn Kwiatkowski

What is the legality of the action you have taken to put a blockade on the Standing Rock Sioux Nation? The media and sheriff are now talking possible violence. The Pipeline protest is peaceful and the world will be watching to see who instigates any violence. Thanks to social media and mobile phone video we will see who is responsible. The Dakota Access pipeline violates tenets of the U.N. Declaration on the Rights of Indigenous Peoples, including the "right to health, right to water and subsistence, threats against sacred sites including burial grounds, Treaty Rights, cultural and ceremonial practices, free prior and informed consent, traditional lands and resources including water, productive capacity of the environment, and self-determination." It is your duty to uphold UN Right to Health for the indigenous people, the Standing Rock Sioux. In view of the hundreds of pipeline oil spills - you cannot guarantee the safety of the water supply for the Standing Rock Sioux. This link is to a map of oil spills in the US http://www.nytimes.com/interactive/2011/09/09/business/energy-environment/pipeline-spills.html?_r=0 I look forward to your reply Heather

I would like to request that your office make sure that the people protesting the pipeline have water. Obviously, it's a basic human need. The people who are protesting this are the ones who would be directly affected if the pipeline were to malfunction--which history as shown is common. Moreover, these are people who were living on this land long before Europeans came along and "modern technology" evolved. So, in affect, they are being penalized on many levels. Their land was taken, they were slaughtered, they were forced to conform to an alien culture, and now the land that has been "given" to them (which already was theirs) is being threatened with environmental catastrophe. I would appeal to your conscience in this matter. Please at least allow these people to have the basic necessities of life. Thank you, Drew Beck Madison, WI

Dear Gov. Dalrymple, I am writing to you today in regards to the protest of the Dakota Access Pipeline. I am shocked and saddened to read of your response to a lawful and peaceful protest by American citizens. You are violating their civil and constitutional rights as citizens and if any harm comes to any one of these protesters you will be held responsible, by law, as it is your orders being followed. I hope you are made to answer for your actions in a court of law. I live in Virginia and if you do not realize the whole country and world is watching. As a governor your duty is to uphold the rights of EVERY citizen in your state, whether you share their values or not. The state of North Dakota continually disregards the rights of the Indigenous and restricting travel to this area stinks of the history of Indian/White relations and the restriction of travel by the Indigenous and those who support them. You should be ashamed of yourself and I hope when the next election comes a new governor is elected; one with integrity. Signed, Crystal Willcuts-Cole

Dear Governor Jack Dalrymple: I write to urge that you meet with David Archimbault II of the Standing Rock Sioux and other leaders from the Native American tribes involved in efforts to stop the Dakota Access pipeline from crossing the Missouri River and violating Native land and the rights of Native people. Mr. Archimbault's op-ed in today's New York Times makes a strong case for halting the Dakota Access project, not only for the Native people but for multitudes of others who depend on water from the Missouri River. To date the State of North Dakota has demonstrated great irresponsibility. You, as leader of the state, can correct this. Please do so. Yours sincerely, LeRoy Moore, PhD

Dear Governor Dalrymple, I am an Israeli-American living in Boston. I love this country and think that its landscape, its multitude of peoples, and its incomparable diversity of cultures is one of the greatest gifts on the planet. As someone who grew up in a land with water scarcity and political turmoil, I find it despicable and unconscionable that you would shut off the water supply for people protesting the irreparable destruction of their land. Please allow the protesters to protest, as is their constitutional right, and allow the Congress to listen to their constituents, and the courts to consider tribal autonomy and water rights, so this democratic system we have can function and decide the future of the pipeline. Your action hurts the people-first system you are sworn to serve. It also hurts the people who are fighting for what is the most precious right: water. With respect and the hope that you will find it in your heart to listen and not to be beholden to the money-first interests of Energy Transport Partners, Roi

Hello Governor. I am an Iowa citizen. I just returned from a vacation during which I had the privilege to visit the Stand Rock Reservation in your state. I urge you to treat the protesters with compassion and dignity, and to actually listen to what they are saying. A business man like yourself should realize that there needs to be compromise. The Army Corps of Engineers may "own" the land now, but our forefathers lied, cheated, murdered and mutilated the forefathers of all Native Americans in order to lay claim to the land you now feel free to scar up for more oil consumption. I urge you to keep your state beautiful and invest in clean and renewable energy. Please return water and other necessary supplies to these people, as they use their rights as Americans to assemble, protest, and let their voices be heard. Sincerely, Mrs. Sarah Willis La Motte, IA

Do you not think you and the rest of this country have done enough harm to native Americans? Why is this so important you are depriving perfectly well behaved citizens from water? Are you going to start shooting non violent protesters claiming "you thought they had a gun"? Stop taking money from private interest groups and begin to think about YOUR JOB. YOUR JOB is to PROTECT and SERVE your state and the people in it. Not destroy the simple basic water supply. Leave the Sioux alone. Get off their land. Stop the oil crap. Really grow up and look at reality. You will NEVER be reelected with your narrow minded frame of mind and with your greedy paw out for money.

Hello, My name is Lea McCormick. I am a Republican and I am also a Muscogee Creek from Oklahoma. I am reaching out to you to ask for your help in the pipeline situation. All things aside, Isn't the Sioux tribe a sovereign nation? Isn't building on their land the same as building in Canada or Mexico without their permission? If the Native tribal nations were treated by the US government as the sovereign nations they are, I believe that the injustices would stop. I know that "the native vote" is not a huge power for the upcoming Presidential election, but I think it is high time that Republicans support Native nations and treat as the sovereign entities they are. The Democrats have long been the ones Native Americans mistakenly have supported not realizing they couldn't care less about the community as a whole. If you have any pull at all, it would be a great act of good will to help the tribe and all the other people that benefit from the water source in that area. Thank you so much for your time. Take Care.

Governor Dalrymple, I am writing in support of the people of Standing Rock with regards to the Dakota Access Pipeline. I am disgusted by the construction of this pipeline so close to the water source for these people who have already suffered so much at the hands of the US and North Dakota governments. It is yet another case of environmental racism, pushing forward with plans to export short term profits with no regard for the devastating local effects. If that were not enough, the current treatment of these peaceful protestors is inexcusable. Trying to end a protest by blocking access to water and sanitary services is despicable. You risk human life to win a battle over profit. It would be far more honest to just take up arms and begin firing at the peaceful protest. The State of North Dakota should be ashamed. I have had the honor to work with and among the people of Standing Rock and other North Dakota Native Nations a number of times. I can assure you, they deserve better. I stand with Standing Rock, Dr. Amanda McNabb Lynnwood, Washington

I hear the state of North Dakota is protecting the health and safety of their citizens by not providing water to the pipeline protesters. I own mineral rights in North Dakota but I am against a pipeline across the Missouri river. Sooner or later it will leak into the river that provides water down here in Nebraska as well as all the other states on the Missouri's way to the gulf. What kind of person takes water away from people? I'm disgusted. I guess I know who to leave my mineral rights to, since I have no children. Please do better.

While I appreciate that you have a difference of opinion in regards to the pipeline, you need to understand that this isn't just a North Dakota issue. The protesters are making a legitimate point in regards to this pipeline and it is up to you as an elected leader to listen and consider their perspective. Denying water to anyone is a violation of human rights. Denying the voice of the people in peaceful protest is in violation of the Constitution. Also, OIL IS DEAD. Join the rest of us in finding alternative fuels. You can do it. I believe in you.

Why are you trying to kill, starve, injure, withhold water from, arrest people who have the right to protest, who have the right to clean water, who have the right to assemble...are you really that callous.....you should be thanking these people for pointing out the obvious...water is sacred...and it should be protected from the greed of corporations who only care about money. I pray you have the good sense to change your mind about this. I'd like to say I am hopeful, but I doubt you can make a choice that does not line your pocket in some way. White people rejected this pipeline in another part of the state, but it's ok to inflict it on red people. Take the hint...no pipelines near water.....find another way.

Dear Governor Dalrymple, Millions of people are watching the events unfold at the DAPL site and the protest of the pipeline. We know The People at Standing Rock have been peaceful and reports of arms and violence are false. It appears it is the Corporation claiming it needs to protect workers and equipment. As the oil industry is the top contributor to you, according to the National Institute on Money in State Politics, I am deeply troubled by this connection and recent events. North Dakota's homeland Security Division Director, ordered the removal of state-owned trailers and water tanks from the site, again with a reason to protect property. These people should not be punished for exercising their rights and have been peaceful. The assessment of the USACE is questionable, and people have a right to have all reviewed. Thank you for reconsidering this issue. Sue Gorenflo

Governor Jack Dalrymple, I am disappointed to hear that you recently took measures to deny protestors of the Dakota Access pipeline construction project access to relief resources necessary to ensure the health and well being of those participating in protests. It is unfortunate that despite public discussion and protest regarding the project it continues to garner support from your office. This unfortunate decision will be remembered during the next election cycle. Please expect that your donors will receive messages expressing dissatisfaction as well.
Best regards, Victor Ude

I respectfully ask that you allow the protestors at Stone Camp to have access to water and to have communication with those outside the camp by not jamming the cell phone reception. These are peaceful protestors who are rightfully concerned with the possibility of their water supply and the Missouri River itself becoming contaminated, endangering many lives. Please keep all of the people involved on all sides of this protest safe. A concerned citizen, Susan Andersen

Dear Sir, Is it true, that you have cut off water to the Indians who protesting, who have every right, and perhaps more rights that the rest of us , who are really illegal immigrants on their land, to peacefully protest. The news is going to make headlines round the world , believe me. And it will cause a huge backlash against the US. We will be shown if a very bad light, I hope you will rethink you decision. Regards, P.Ouimet

I would like to know why you are not protecting the Native Americans that are protesting to save their land and water. Clean water has become national crisis in many areas. You need to stand for the rights of your citizens!

I've heard that the people protesting the Dakota Access Pipeline have had their water taken away from them. Please don't allow this cruelty to continue. As Americans, we all have the right to freedom of speech, and as human beings we have the right to clean drinking water. Thank you

The Nation is watching what is happening in North Dakota right now. I'm asking that you think about how you will be remembered in history. If you are truly an advocate for the people, someone voted in to represent the citizens of the United States, than please do not allow water to be cut off from Native American protesters. This is inhumane, and no amount of riches paid to you by the oil company will change your reputation. You cannot buy favorable public opinion. Please act now, on behalf of the people, not the greedy corporations. This pipeline has a 57% chance of catastrophic leak, how on Earth, could you sleep at night if and when it were to rupture, and 30 million peoples water is contaminated? Please I urge you to stand up for people and water.
Thank you, Mandy Valencia

Why are you trying to kill, starve, injure, withhold water from, arrest people who have the right to protest, who have the right to clean water, who have the right to assemble...are you really that callous.....you should be thanking these people for pointing out the obvious...water is sacred...and it should be protected from the greed of corporations who only care about money. I pray you have the good sense to change your mind about this. I'd like to say I am hopeful, but I doubt you can make a choice that does not line your pocket in some way. White people rejected this pipeline in another part of the state, but it's ok to inflict it on red people. Take the hint...no pipelines near water.....find another way.

Dear Governor Dalrymple, Millions of people are watching the events unfold at the DAPL site and the protest of the pipeline. We know The People at Standing Rock have been peaceful and reports of arms and violence are false. It appears it is the Corporation claiming it needs to protect workers and equipment. As the oil industry is the top contributor to you, according to the National Institute on Money in State Politics, I am deeply troubled by this connection and recent events. North Dakota's homeland Security Division Director, ordered the removal of state-owned trailers and water tanks from the site, again with a reason to protect property. These people should not be punished for exercising their rights and have been peaceful. The assessment of the USACE is questionable, and people have a right to have all reviewed. Thank you for reconsidering this issue. Sue Gorenflo
