Subject: Kim K. seeks restraining order against man who tried to kiss her

Kim Kardashian wants authorities to give the kiss of death to the infamous celebrity accoster who tried to smooch her derriere. The reality star reached out to French law enforcement to file a complaint Wednesday after Vitalii Sediuk popped up behind her and attempted to land a kiss on her left butt cheek as she entered a Balmain event for Paris Fashion Week, E! News reports. The aggressive mischief-maker was ultimately tackled to the ground by Kardashian's security team before being let go, but the TV personality wants further justice. She's seeking a restraining order from the Ukraine native and believes he'll continue to be a threat to celebrities if he isn't punished, according to TMZ. The shocking attack came two years after Sediuk's first encounter with Kardashian, when he appeared to lunge at her legs and tackle her outside of a 2014 Paris Fashion Week event. The 27-year-old Sediuk — who has a lengthy history of similar encounters with stars like Brad Pitt, Leonardo DiCaprio and Will Smith — explained his motive for Wednesday's incident with Kardashian on Instagram later that evening. "I was protesting Kim for using fake butt implants," he wrote. "I encourage her and the rest of Kardashian clan to popularise natural beauty among teenage girls who follow and defend them blindly." Kardashian, however, has long denied getting backside implants and once got an X-Ray on her TV show, "Keeping Up with The Kardashians" to prove it. The assault on Kardashian occurred just one week after Sediuk snuck up behind supermodel Gigi Hadid outside a Milan Fashion Week show and lifted her off the ground. Hadid, 21, quickly fought back by elbowing the violator directly in the face — a move she later defended in Lena Dunham's Lenny newsletter. "Honestly, I felt I was in danger, and I had every right to react the way I did," she explained.

Governor's Call-in Show, 9/26/2016

- **Roads.** Last week re: Transportation Innovation Act. Top legislative priorities, \$450M invested overall. Last week announced – county bridge match program of \$40M, selection process selections of how we'll do the projects, which first. Dedicating more dollars to expressway system, changing the way we prioritize – public input, economic development, etc. DesignBuild. 8 projects beginning, 12 in design, couple in planning. Finishing 1988 vision of Gov. Orr and then 2011 Deb Fischer, LB84 Build Nebraska Act. All under construction or in design with this announcement. [Examples given] Room for flexibility for communities' needs in the future. Exciting day in Nebraska.

- James, Blue Springs – Whiteclay visited soon. Heineman had proposed tribal police don't want to be deputized in Nebraska. Why can't we add a sin tax be added to pay for that?
 - Discussing with local citizens, folks on the ground. Come back with ideas – working on tactical plans. Fed grant for more law enforcement in Sheridan County, increased trooper hours. Other ideas too. Looking at them to address problems. Has to be a partnership with people on the ground there. They're the ones to see the problems every day. Can't come from Eastern NE with our ideas only.
- Don, Osceola – Thank you for road on 81. Finally on the menu to getting something done.
 - Yes, being designed now. May not be funds right now, but on the list. Definitely listening to folks. On the radar.
- Mark, Holdrege – encourage you to get on Senators publicly or privately to support Trump. They've been very quiet, can't afford liar and fraud, Clinton.
 - Thanks for your feedback. Discussed with Sen. Fischer – talked to him about Supreme Court nominees – important issue for next President. Decision will last for decades. Highlights why this race is so important. Reach out to your senators' offices to let them know your concerns. Debate tonight. Tune in and see how it goes.
- Richard, Polk County – when finish 4-lane between Schuyler and Fremont.
 - Couple in design process. Contact my office at 402-471-2244 [almost gave cell #???], slated between 2016 and 2019. We can get you more info if you call us.
- Rollin, Kearney – traveled to CO over weekend, accidents on I-80, only saw 2 state patrolmen all the way out there. Scale house in North Platte closed – don't get checked out, tired drivers, etc.
 - Thank you for that feedback. Try to make sure we have appropriate level of enforcement out there. Another 19 graduating now. Grants for enforcement, especially around holidays.
 - Weigh station – mile marker?
 - Not sure. East of NP interchange.
 - I'll follow-up with Roads and Patrol. May have been other need in county then. Especially marijuana stops near CO.
- Bruce, North Platte – football team in NE, players didn't stand for national anthem and flag. Doesn't look good for NE letting their players doing that. Don't need that stuff in NE. Leaders, not followers. Put them on a ship and dump them in the ocean.
 - I respect the players' right to protest. Generations of men and women have died to give them that right. Disrespectful of their actions. I was also disappointed. But people in this country have that right to protest.
 - Dean of college and head coach shouldn't let that get started – why we have shootings and killings. Take their scholarships away and kick them out.
 - Write them a letter and let them know how you feel.
- Bruce, Seward – Congrats to brother and Cubs.
 - Exciting season, won 99 games, titles, playoffs.
 - Trip to Illinois – maybe incorrect, but they made an amendment to driver's training manual re: what to do if you're stopped by law enforcement. Wife pulled over, got out of car to help kids playing by street. They don't know how to act, what is expected with them.
 - Thank you. Excellent idea. Will follow-up with DMV to see if it's in there. Great guidance about expectations. Avoid unnecessary stress between the parties involved.
- Kimberly, Sarpy County – early childhood education program, extremely concerned about your support of this. Buffett education website makes it sound good. Clinton = universal preschool, government officials in people's homes to help them parent their kids. Over 40% of kids are at-risk. I looked it up. Our family would qualify for 3 of those – free lunch and a couple of others. Way overinflated. Deeply concerned of liberal idea into conservative governorship. Why do you think this is a good idea?
 - Thanks for asking. Working on now – P16 committee Heineman had – looked at 2 different areas – workforce development and subcommittee = early childhood education. Your analysis is exactly right about 40% - includes single parent households. I challenged folks to come back with data. What have other states done? Worked? Results to show? Define success. Early stages now. No plan to displace private providers of Pre-K or daycare. 1/3 kids in NE attend early education before K. Define what we're trying to accomplish, non-big-government ideas. I share a lot of your concerns re: government into our homes and our parenting decisions. Helping early

childhood education programs know about best practices. I share your skepticism re: a lot of these things. Use HHS and Education statistics that we already collect. Never take away rights of parent on raising them and educating them. Talking to see if there are things we can do to improve.

- o American Exceptionalism Law – early childhood education = public education? In conflict. Kids not been taught value of entrepreneurship and patriotism. Pull in those concepts – hard work, integrity, ideals America was founded on. Will lift families up with this instead of a government program.
 - Definitely yes. As we move forward, I'll take your feedback to the group – agree with foundational values of U.S.
- Jim Ord – mainly state-oriented in show's outlook. Remind people if we work together, government can do good. Lights running right now. REA in Ord with encouragement of Senator in the past. Board of Governors to vote for – an example of what you can do as a state. National level – Trump – Other side a little bit. If you have looked at Trump's economic plan – cut on corporate tax, cut inheritance tax. Biggest grab for the rich. Estate tax helps get money to government. Beginning farmer gets a chance to buy land. If like Bush's plan, will cause us to go back into recession again. Cut of income tax = more buying of combines, someone has to manufacture those. Just pay income tax = no incentive for growth. I feel like we're heading for recession with that.
 - o Thank you for calling in. Proper role for government – Transportation Innovation Act passed with legislature. Help us grow our state. Hallmark of my administration – make government work for the people – more efficient, transparent, etc. National issues – that's why we have elections. See debate tonight to learn more about both candidates.

BREAK

- Mike Lincoln – upset and appalled by UNL football players, silent and peaceful protest. Other ways to protest? Examples that you would approve of?
 - o I didn't say they were being disruptive, I said it was disgraceful and disrespectful. Olympics – raise their arm, not kneel. Causes they believe in. Send signal of disrespect of Americans and their flags.
 - Too politically correct. Why not upset of 1,000 Americans being shot?
 - One of reasons to have a free country. Would not try to take their right away even though I disagree with them.
- Myron Broken Bow – property tax, sales tax on everything – machinery, groceries, government would have more money than they would know what to do with.
 - o That idea didn't go through a couple of years ago. Sustainable tax relief = control spending. Looking at different ideas. Still more work to do.
 - Groceries, everyone pays in. Sales tax fairest tax there ever was.
 - Looking for ideas just like that for tax relief.
- Clifford Dalton – why Game and Parks can't put in camp parking at Bridgeport State Park to hook up to sewer and electricity.
 - o Thank you for calling in with that feedback. I'll share that with the Commissioners when I see them. They don't report to me. Give them that feedback as well – they take public feedback, 402-471-0641
 - o Octoberfest on Friday?
 - Yes, I love to travel the state as much as I can.
- Roger Lincoln – prison system is giving you a headache – what we have now is not working. Don't have to build prisons like we did in Tecumseh when all we need is a simple building. That's all you have to do. Arizona has the right answer – not million-dollar buildings.
 - o Thanks for feedback. Prisons built = don't meet needs we have, continue to invest in prison system and the physical plant – provide inmates with programming – job training, education, counseling. Part of investments we want to be making. They will be released one day – don't want them to reoffend and come back – has led to overcrowding. Corrections reform, Dir. Frakes making changes to improve work life for corrections officers (increase salaries proposal

to union), help with travel expenses, workout facilities. Not a silver bullet answer to fix our problems, will take time to improve culture. Don't believe we need to build a new prison.

- o Money pit that can't be filled up. Taxpayers being killed, why do we treat them like princes? Treat them like bad guys.
 - Want to be respectful of taxpayers – expense controls, wise investments.
- Curt, ? – take away prisoner's rights, system is backwards – give power back to guards and staff. If no change, more riots, injuries.
 - o Are we doing the right things in management, policies to support them. One example to change – past, sergeants and officers both reporting to 1 lieutenant – 7- employees for one supervisor. Needs to change. Need to protect everyone's safety. Lots to do, we have a plan, will take time.
- Chastity, Valentine – NE players not standing, take issue with her. I understand players, where they are coming from. Ship them off? Violence never helps violence. Lots of hatred going on in world now, political sides – one side brought more hate than ever before, even against his own Republicans. "Make America great again"? We're the best country in the world. No one corrected that lady. Be more tolerant of each other. Football players are young men working hard for us. Let them silently do that in their own way. You should've corrected her. Not a fan of Trump, he gets away with a bizarre behavior because he isn't challenged.
 - o I didn't condone violence against players. Respect their ability to protest even though we disagree with it. Always need respect of opinions of people who we disagree with. I didn't think they were advocating violence – against them or anyone.
- Robin, Firth – concerned about prisons and prisoners. Nurse – I see people who work and don't have insurance, former prisoners have awesome insurance that covers everything. People on death row – why giving them medical, dental, vision, surgeries to keep them alive? Lots of issues in prisons already. Elderly on Medicare – no vision or dental insurance. Something we should work on to save more money.
 - o Thank you for calling in. Law passed, introduced by Sen. Chambers to provide community level care for prisoners. May be something we're providing that other people don't get. Death row inmates deserve basic care. Level in practice may not be so straightforward. Need to be within bounds of what legislators pass.
- NEED TO CORRECT MYSELF – I guess previous caller did mention lynching players. If I had heard that, I would've condemned that idea. I apologize to Chastity. Shouldn't tolerate that type of language.
- ?, ? – Hwy 74 north of Tekamah horrible.
 - o Thanks for the call.
- FOLLOW-UP - Updates on highway projects.
- FOLLOW-UP - Weigh stations – weekdays, daytime hours.

Subject: For Your Situational Awareness: Updated ESS Logs

Two ESS Logs have been—and continue to be—updated today:

LOG # 1066 – HAZMAT / Dakota County / South Sioux City Evacuations (10/25/2016) – ND@Q, Dakota County Emergency Management, and South Sioux City continue to work to resolve this. People are still voluntarily evacuating, due to the odor. Deanna expects South Sioux City to issue a press release later this afternoon or tomorrow morning.

LOG # 1060 – EMAC-Assisting / North Dakota / Law Enforcement Officers (10/19/2016) – Through the EMAC system, Nebraska has sent one of our NSP planes (and NSP flight crew) to North Dakota to assist with law enforcement issues surrounding the Dakota Access Pipeline (DAPL) protests. They deployed yesterday, October 30th, and are scheduled to return to Nebraska one week from today, on November 7th. We still have 11 NSP Troopers in North Dakota. I believe they are also scheduled to return to Nebraska at the end of this week. *Reminder that, per our leadership, "anyone receiving any press or public inquiries regarding the states support of North Dakota through EMAC need to be directed to Cecily Fong PIO for ND Department of Emergency Services at 701-328-8154." If the caller insists on speaking to someone at NEMA, those calls need to be routed to Earl's office.*

Mission Description:

URGENT – AVAILABILITY of Sworn Law Enforcement Officers over the next 60 days

Resource Description:

QUANTITY – Situationally dependent, based upon activity TIMEFRAME - Although deployment dates note now through the middle of January we are looking at availability for deployments of 7 or 14 days (on-site) + travel during those dates. North Dakota is seeking additional State and/or Local law enforcement support via EMAC over the next 60 days to augment in-state law enforcement personnel. Required out of state LE needs

are dependent upon activity and staffing shortages. If able to assist, please provide information regarding number of officers and timeframes to our EMAC POC () as soon as possible for planning purposes. Any and all offers will be considered regardless of number of personnel you are able to provide. Officers will be assisting in a situation involving civil unrest and criminal activities related to opposition of the Dakota Access Pipeline (DAPL) project, primarily in southern Morton County in North Dakota. Officers will be assigned to perform one of the following duties within the Quick Response Force (QRF).

1.) requesting Agency will reimburse wages, to include overtime, for officers deployed to North Dakota but not back-fill at home station. Desired deployment is 14 days on site with 2 travel days for a total of 16 days; however deployments of 7 days on site with 2 travel days for a total of 9 are acceptable. Possible early demobilization dependent upon situation.

4.) Vehicle (if available) a. A 4 x 4 marked vehicle is preferred, but not required. b. 1 vehicle for every 2 deputies/officers. 5.)

Cc: Gage, Taylor; Imler, Earl; Tuma, Bryan
Subject: call re: emac

Janice Malhawk of Ashland would like to register her protest that Nebraska troopers were sent to North Dakota.

She knows it is paid for by North Dakota. She understands about EMAC but does not want Nebraska to support another state for this particular reason. She understands fires, floods and other requests but not support of a company in North Dakota. I told her the civil unrest in North Dakota was taxing the available resources there and they requested assistance. The troopers were sent to support North Dakota as is works to keep everyone involved safe.

She asked if the troopers can be called back to Nebraska.

I told her I would forward her complaint to your office. Her number is 402-871-8260. However I did not tell her anyone from your office would contact her, just that I would let you know of her concern.

I then transferred her to Earl Imler because she wanted to know who in my organization approved the troopers going to N.D. and she wanted to talk to him.

Questions or Comments	<p>Why did you send patrol to North Dakota to stand against the Native American's? This is so wrong! I had the utmost respect for you! Every year I send a check to the State Patrol to help with support! Never again will I send any money! You have chosen the wrong side! I am only 1/4 Native American and this makes my blood boil! How would you like to see your families burial grounds bulldozed? I bet you would not like it! Yet you send troops to support an Army against the wrong people! The Oil company, Savages, has already Bulldozed two Sacred Burial Sites that we know of! BLM can do what ever they like and not a thing is done! A Peaceful protest against savages, the oil company, destroying Sacred burial Grounds and possibly destroying our water, you send Troops to support an Army defending Savages! This is so wrong! Many more people feel the same as I do, as Nebraskan's we should stand with the Native people not the savages! Force is being used against the Native People, this is so Wrong! Treadys are once again being broken! Sacred sites destroyed! For what? Money to a big company that could care less about the water or the land and the People! God sent the Buffalo as a sign! I pray He defends the Native People and their land! Do the right thing and stand with the Native People, fight the Savages and the Army standing against the Native people! Shame on you for not protecting the Native People! Respectfully Robert Gray</p>

Marlenia,

The Emergency Management Assistance Compact was set up nationally to allow states to share resources to respond to events. Once a governor declares a disaster or emergency then that state can make a request for assistance from other states. That assistance can be for response to a natural disaster, a technical hazards incident, a man-made disaster, civil emergency resource shortages or community disorders or insurgency.

Cost for the response is paid for by the requesting state. Here is a link to information on the legislature's site.

Subject: Governor's Response about today's pipeline protest

Hello Taylor,

A group of Nebraskans gathered at the capitol today and went to the governor's office looking for answers regarding the decision of sending the State Patrol to North Dakota.

Many protestors say they're wondering why the Governor sent them as well as they're questioning Governor Ricketts' personal financial interest in the pipeline. They are also looking to have a conversation.

I'm looking for a statement or a response from the Governor regarding their claims and requests today.

Could you please send me a response by 2 p.m. today?

Also, could you please provide me details of the Emergency Assistance Compact? I know you said it has been used in the past for wildfires. When's the exact last time it was used? Why? Also, how many troopers are there and when will be back?

Thanks,
Marlenia

Curtis, Brent

Subject: RE: Is Nebraska law enforcement headed to North Dakota?

Good morning Nick,

I can confirm the Nebraska State Patrol has sent support to North Dakota pursuant to the Emergency Management Assistance Compact (EMAC). EMAC is a system in which states agree to provide resources to other states when requested. The assistance is being provided at no cost to Nebraska taxpayers. The compact provides for expenses to be paid by the requesting state.

Should you have additional questions, please contact Jodie Fawl at the Nebraska Emergency Management Agency at (402) 471-7428.

Best,
Deb

Subject: Is Nebraska law enforcement headed to North Dakota?

Deb,

Are members of Nebraska law enforcement going to North Dakota to assist with protests of the Dakota Access pipeline?

Who is coordinating this?

How is this being paid for?

Thanks,

Nicholas Bergin

Deb, we heard some NSP troopers are going to North Dakota to help law enforcement maintain order and public safety at a protest there.

Anything true or accurate in that info? What can you share about NSP support there, if any?

Please let us know.

Thanks,

Jerry Howard

Subject: RE: State Patrol Response

Hi Marlenia,

I can confirm the Nebraska State Patrol has sent support to North Dakota pursuant to the Emergency Management Assistance Compact (EMAC). EMAC, which was established in 1996 (Public Law 104-321) is the cornerstone of the nation's mutual aid system. Essentially, EMAC is a system in which states agree to provide resources to other states when requested. The assistance is being provided at no cost to Nebraska taxpayers. The compact provides for expenses to be paid by the requesting state.

Please contact the Nebraska Emergency Management Agency (NEMA) PIO Jodie Fawl for information on the state's response for assistance through EMAC. Her contact information is below.

Jodie Fawl
Nebraska Emergency Management Agency (NEMA) PIO
(402) 471-7428

The questions you have specific to the support being provided, are operational in nature and need to be directed to the state requesting the assistance. Please contact the North Dakota Emergency Services Public Information Officer her contact information is below.

Subject: State Patrol Response

Hello Deb,

A group of Nebraskans gathered at the Capitol today questioning the role of the State Patrol in North Dakota with the pipeline protests.

We know the Governor approved the request to send troopers under the emergency assistance compact earlier last week.

The protestors are saying troopers are attacking peaceful protestors with mace. Some are saying that troopers are acting as aggressors.

I would like to get a response from the State Patrol about these claims. What are the troopers assisting with in North Dakota?

How many were sent again and when do you think they'll come back?

I would like to speak to someone on camera before 1:30 p.m. Today. If that's not possible, could you please send a statement as a response by that time?

Thank you,
Marlenia

Paul –

You may attribute this to me as the Governor's spokesman:

"Early last week, the Governor's Office approved a request to provide resources to North Dakota under EMAC. Since then, NEMA has been working with North Dakota to formalize the request. All expenses are paid by the requesting state, and there is no cost to Nebraska taxpayers. Nebraska has utilized resources from other states under EMAC in the case of wildfires in the past."

Subject: troopers to N. Dakota

I'm told that 11 troopers are headed to North Dakota via the Emergency Management Assistance Compact, upon a request from North Dakota concerning their pipeline protests.

Also told the request was formally approved Monday by the Gov. but that an informal OK last week allowed the troopers to leave on Sunday.
Can you confirm, provide comment?

Paul –

Reading your story on Whiteclay...

The Governor mentioned at his news conference last week that Whiteclay has seen a significant increase in enforcement hours from the State Patrol this year: 485 so far this year versus an average of 256 between 2002-2015. You mention that some have made the argument for these increased hours, but you do not mention the increase in enforcement hours.

Sirs,

Please see the EMAC request from North Dakota below. They are requesting 40 LEOs to assist with a pipeline protest ("civil unrest"). I just received a call from their POC, Geneva, asking if Nebraska would be able to at least partially fill this request for 40 LEOs.

Because of all the EMAC traffic related to Hurricane Matthew, this one slipped under the radar—which is why Geneva is following up with phone calls to nearby states.

If this request is something the State would like to move forward on, please let me know and we can start the appropriate paper trail. If you have any questions or concerns, please don't hesitate to contact me, or Geneva (her contact info is in the EMAC request).

Thank you.

I just received another call from Geneva. Like I told her—in her shoes, I'd probably be doing the same thing.

Added twist: She says that either their state police colonel talked to the NSP colonel or one of their sheriffs was talking to one of our sheriffs, and (whoever talked to whoever) indicated that we might have some LEDs available to send.

I told her that I'd follow up on this and get back to her.

Mission Description: Aviation assets w/pilots and associated crew.

Resource Description: Nebraska State Patrol's fixed wing aircraft to assist with the DAPL protest incident occurring in North Dakota. Cessna fixed-wing 206's and any other equipment they feel is necessary to assist in both day and night flight operations. Aircraft would be on a weekly rotating basis with other aviation resources and would be allowed to return home when not on duty unless situation dictates the need to remain in state for availability. They will work 12 hour shifts that will be coordinated with the ND Highway Patrol providing 24 hour air support to officers on the ground. North Dakota would like to have the ability to release and call back to support based on activity. Ability for Nebraska State Patrol to deploy one helicopter with pilot and associated crew to sustain 24 hour operations if the situation warrants. If helicopter is required to respond, ND Highway Patrol will notify Nebraska Highway Patrol.

Bryan,

Attached is the EMAC request put into the system for your LEOs. I understand that our HP's are talking to you^l about their plane and pilot and if needed and available once they coordinate we will request that resource on a separate request.

Thanks for your help, the support is greatly appreciated.

Attached is the EMAC request that was sent to Nebraska for up to 11 LE officers.

As I mentioned to you I'm still waiting from Sgt. Henke with the NDHP regarding whether or not they want us to proceed with an EMAC request for the Nebraska HP plane and pilot but didn't want to hold up the LE officer piece.

Mission Description: Aviation assets w/pilots and associated crew.

Resource Description:

Nebraska State Patrol's fixed wing aircraft to assist with the DAPL protest incident occurring in North Dakota. Cessna fixed-wing 206

and any other equipment necessary to assist in both day and night flight operations. Aircraft would be on a weekly rotating basis with other

aviation resources and would be allowed to return home when not on duty unless situation dictates the need to remain in state for availability. They will work 12 hour shifts that will be coordinated with the

providing 24 hour air support to officers on the ground. North Dakota would like to have the ability to release and call back to support based on activity. Ability for Nebraska State Patrol to deploy one helicopter with pilot and associated crew to sustain 24 hour operations if the situation warrants. If helicopter is required to respond, ND Highway Patrol will notify Nebraska Highway Patrol.

Subject: EMAC Mission 1102-RR-5285 (Air Assets), REQ-A Section 2 (attachments)
Attachments: EMAC Offer NEMA 1060 2F excel.pdf; EMAC Offer NEMA 1060 2R excel.pdf
Importance: High

Geneva,

Regarding the air asset mission request via EMAC, I've attached two REQ-A Section 2 files:
EMAC Offer NEMA 1060 2F excel.pdf – for the fixed-wing aircraft offer
EMAC Offer NEMA 1060 2R excel.pdf – for the rotary wing aircraft offer.

The only differences between the two aircraft are directly related to the cost of operations for both aircraft. This is based on the understanding from the EMAC request, that our air assets would be working in North Dakota for seven straight days, back to Nebraska for seven days, and then working in North Dakota seven more straight days—thus, four travel days (and associated costs) were built in per person and vehicle/aircraft.

The fixed wing aircraft is a Cessna T206. FEMA does not have a cost code for this, but they do have a cost code (#8906) for a Navajo PA31 fixed wing aircraft, which is rated at the same power (310 horsepower), so for planning purposes, I have used that cost code of \$568/hour. Note that, per FEMA guidance, this equipment rate does include maintenance, fuel, repairs, etc., but does not include operator cost.

The rotary wing aircraft is a Bell model 407 helicopter. This particular model does have a FEMA cost code (#8905), so we have used the FEMA equipment rate of \$755/hour for this asset. As with the fixed wing, the equipment rate includes maintenance, fuel, repairs, etc., but does not include operator cost.

Going through the sections of Section II...

Travel Costs: As with the other EMAC mission, we are operating under the understanding that our personnel will be provided lodging, and lunch & dinner meals by the state of North Dakota. Thus, we have assumed breakfast (20% of \$51/day per diem: \$10.20) for 14 days, and then full meal per diem for a total of four travel days for four persons. Lodging costs (at a per diem rate of \$91/day) were included for each of the four personnel for a total of four travel days. The "Total Government Vehicle Expenses" was based on one ground vehicle traveling 680 miles one-way at a rate of \$0.54/mile on four travel days. The "Total Air Travel Expenses" is based on the FEMA equipment rate for the Nebraska State Patrol multiplied by the estimated flight time from Nebraska to North Dakota (3 hours for the fixed wing, 3.5 hours for the helicopter) for four travel days.

Equipment Costs: The only entry here is the aircraft being used. Our State Patrol has been communicating with North Dakota Highway Patrol. They have suggested that he should plan on flying up to 10 hours/day. Thus, we have used that figure and multiplied it by cost per hour for the appropriate FEMA cost code.

Commodity Costs: We have no known commodities to document here.

Other Costs: We have included a hangar rental cost in North Dakota of \$25/day for 13 days.

Personnel Costs: As with our other EMAC mission to North Dakota, we have found that the easiest way to accurately capture personnel costs per individual is to use two lines for each person. This provides the most efficient mechanism to reflect days that are pure overtime, for those individuals who are not overtime-exempt.

...In Summary: Both in the REQ-A Section 2 and this email, I hope I have explained the basis, formulas, and reasoning behind particular costs. Of course, if you have any questions or concerns, please don't hesitate to contact me.

We can provide a signed copy of the appropriate EMAC offer upon confirmation from you of which offer you wish to proceed on.

Thanks!

Subject: RE: EMAC Mission 1102-RR-5285 (Air Assets), REQ-A Section 2 (attachments)

Geneva,

I've published our offers onto the EMAC website. Two notes:

1. I know this is probably understood, but for the sake of documentation I need to put it in writing—We're offering these as an either/or during a given week. We are not able to send both the helicopter and the airplane during the same week, but we could potentially send the helicopter for one week and the plane for the other week. Again, I know we all understand that, but I just wanted to put that on record.
2. I have signed copies of the Section II ready to upload upon hearing from you to do so. I can do this anytime this evening or tomorrow morning—whatever works for you. HOWEVER... Because of the availability of the Authorized Representative, he actually signed it before you duplicated the request. In other words, the EMAC tracking number and your tracking number aren't going to match what's on the signature page. Everything else is a match. Just those numbers will need fixing. I can rectify that tomorrow morning, but won't be able to do anything about it tonight.

I'm leaving the office for the day, but I've always got my phone and email on, if you need to reach me about anything.

Geneva,

I've uploaded our signed copies of Section 2 for EMAC missions 5285 and 5342. Not sure what happened during the upload, but the signed page is unreadable on both. To that end, I've also attached signed copies to this email.

We understand that, with North Dakota signing of Section 3, we are not seeking reimbursement until such time as you make the call for resource activation. In other words, we'll only start the clock for the mission from the time we start the air resource traveling up there. If you have any questions, please don't hesitate to contact me.

Good morning Nick,

I can confirm the Nebraska State Patrol has sent support to North Dakota pursuant to the Emergency Management Assistance Compact (EMAC). EMAC is a system in which states agree to provide resources to other states when requested. The assistance is being provided at no cost to Nebraska taxpayers. The compact provides for expenses to be paid by the requesting state.

Should you have additional questions, please contact Jodie Fawl at the Nebraska Emergency Management Agency at (402) 471-7428.

Best,
Deb

Subject: State Patrol Assist to North Dakota

Dear Mr. Imler,

Senator Harr read yesterday's *Journal Star* article about Nebraska State Patrol officers supporting North Dakota law enforcement at the Dakota Access oil pipeline protests. The article leads us to several questions:

1. How many Nebraska State Patrol officers went to North Dakota?
2. What exactly does the Emergency Management Assistance Compact fund?
3. Does funding from the Emergency Management Assistance Compact pay for any potential overtime situations in instances where Nebraska State Patrol needs to back fill the temporary absence of those officers in North Dakota?

Thank you in advance for your assistance. I appreciate any guidance you may be able to provide.

Sincerely,

Jamison Wyatt

I requested Earl to contact Tom Schwarten to see if NSP would evaluate the request with the Governor's Office.

Sirs,

Please see the EMAC request from North Dakota below. They are requesting 40 LEOs to assist with a pipeline protest ("civil unrest"). I just received a call from their POC, Geneva, asking if Nebraska would be able to at least partially fill this request for 40 LEOs.

Because of all the EMAC traffic related to Hurricane Matthew, this one slipped under the radar—which is why Geneva is following up with phone calls to nearby states.

If this request is something the State would like to move forward on, please let me know and we can start the appropriate paper trail. If you have any questions or concerns, please don't hesitate to contact me, or Geneva (her contact info is in the EMAC request).

Thank you.
