Please deny the permit for the anti-Communist march that is planned for Charlotte on 12/28/17. This group is not welcomed in my city especially after what happened in Charlottesville this August. Hate should not be protected as first ammendment speech. They plan on bringinf torches. Please do all you can to show the Nation that we will not stand for more hate and bigotry in this great state.

Dear Mayor Roberts,

I have been made aware of a march that has been planned for Charlotte that I gravely fear could resemble the horrible images from Charlottesville, VA. I have to believe there is something you can do to minimize or prevent the threat of violence that these people will bring into our city.

The text from their site reads:

"Bring your torches, guns, armor, gear, and flags! Stay nonviolent, and we'll have a great time. Augustus Invictus, Richard Spencer, Dillon of Vanguard America, and many more will be speaking. Once night falls, we'll (peacefully) march into downtown Charlotte and show the size our ranks."

I fear for my safety as a charlottean with this impending march on the horizon and still can not believe it was allowed to be organized or hosted in charlotte. Please please cancel this!

Charlotte City Council,

My name is [REDACTED] and I reside just outside of Charlotte city limits. It has come to my attention that the White Supremacy group "Anti-Communist Action" is planning to hold a rally in Marshal Park on December 28th, 2017. While I understand the First (and Second) Amendments, and the rights they grant, I do not believe this protest falls under these rights. On the group's website, they are instructing protesters to bring their "torches, guns, armor, gear, and flags." This does not sound like a peaceful protest, simply exercising Amendment rights in the making. They proved that they are not peaceful in Charlottesville in August. I implore you to do what is in your power to prevent this rally from happening.

Thank you,

Mayor and Council,

As a follow up to the previous email, we wanted to further clarify that Anticom is an anti-communist organization. To date, the organizers have not contacted CMPD to confirm hosting an event in Charlotte nor have they filed for a sound permit.

Upon receiving any request for permitting, CMPD vets the organization and those connected to it. This is departmental protocol. The ultimate goal is to ensure that there are no potential public safety concerns or threats.

Thank you.

Chief Putney, Mayor Roberts, Mayor pro tem Lyles, and City Council members,

I'm writing about the "Anti-Communist Action" group that has announced that they're going to demonstrate in Charlotte December 28th.

I'm deeply concerned about the safety of residents, counter-protesters and police. The group has instructed members to bring torches, guns and armor, indicating that it has no intention of a peaceful demonstration. At the very least it intends to intimidate and incite.

Can you tell me a little bit about what Charlotte will do to mitigate those risks, if the group does receive a permit to demonstrate?

From 2012 to 2016 Charlotte had an "Extraordinary Events Ordinance," which prohibited a wide number of items, many of which were not a serious threat to others. It was repealed because it was ineffective. While it was active it was controversial because of the possible violation of people's rights.

But is there no middle ground? Can't a reasonable solution be that people can bring in bottles, but not semi-automatic weapons? If it was constitutional for four years to prohibit rocks from 4th of July celebrations, surely it's also constitutional to prohibit assault weapons from Nazi rallies?

I'm interested to know your thoughts on this and what we will do to keep our city safe.

Respectfully,

Dear Mayor Roberts

PLEASE take action to refuse these groups coming to Charlotte bringing guns, torches, saying they are protesting communists. Charlotte does not need to be a re-run of Charlottesville. These hate groups are delusional people and we do not need them coming to Charlotte and bringing their hate and violence. Counter protests are already being planned as soon as the news was released.

Leaders such as you have a duty to protect the safety of the area and the best way is to stop this at the outset. Nip it in the bud as Barney would say. Hate groups have no right to descend on our community and bring violence.

Sincerely,

since Charlotte is not a bastion of communism, nor is North Carolina I submit that the march advertised is done so under false pretenses. We also know that some or all of the organizers are of this march were involved in the recent Charlottesville march.

That said, and I urge that no parade permit be issued, or revoked if already issued.

My name is [REDACTED]. I'm a teacher and artist living here in Charlotte, NC.

I've become concerned after seeing many news articles this morning detailing Alt-Right, Neo-Nazi and White Nationalist plans to come to Charlotte on Dec 28th. According to the news I've received, many of these folks were involved in the marches in Charlottesville (and least we forget: the murder of a young college student!). Have you seen the Vice News Documentary on the subject? It's chilling: <https://www.youtube.com/watch?v=RIrcB1sAN8I>

To be clear: I do not support these groups organizing in my city. They have already proven themselves to be radical, violent terrorists, whose potential for murder and civil unrest have made a twisted mockery out the 'Freedom of Speech' argument. (It also seems striking to me that if, hypothetically, large groups of violent, gun-toting Muslims were organizing in our streets this would have already been stopped. Why are under-educated, Tiki-torch-carrying white guys met with such sympathy?)

I'd like to encourage our local government to do everything they can to put a stop to this. For the safety of our city, solidarity with our minority groups and to send a message to the rest of the United States that we will not support violent, murderous fascism marching and organizing here.

Dear Mayor Roberts and Chief Putney,

Yesterday, the White Supremacy group "[Anti-Communist Action](#)" announced plans for a rally in Uptown Charlotte on December 28th.

They are the same group that organized last month's violent rally in Charlottesville, which caused multiple deaths and untold misery for the people of Charlottesville.

Charlotte does not need to provide a platform for these people to come in and spew hatred, promote violence, and smear our city's name.

Why should we subsidize a hate group who wants to come into our diverse and growing city and cause trouble?

As a concerned resident, educator, voter, and Charlotte tax payer, I would urge to please NOT issue a permit for this rally.

Warmest wishes,

Hello,

I am writing to let you and everyone with real power in our City know that I am absolutely opposed to Charlotte hosting an "anti-Communist torch march" in December. This is a recipe for disaster that our City just can't handle now:

- 1) We have enough problems with Police policing and our officials' sloppy response to police killings. Why intentionally create another opportunity for poor police decisions and lack-luster community response?
- 2) A woman in Charlottesville was outright intentionally murdered by one of these a-hole white-supremacist marchers. She was a young mother, a daughter, beloved by her family. What happens when an equally beloved young mother from Dilworth, Echo Hills, or Oaklawn gets plowed down by one of those nuts?
- 3) There is no way this event doesn't turn into a riot. The police will be stretched thin not only protecting our anti-ralliers from the a-holes running cars (or maybe this time, firing guns) into our moms & dads, church parishioners, non-profit supporters, and general public, but I am certain our Police men and women will also have to be human barriers between these two groups. This will get out of hand so fast and everyone--the Charlotte Observer, WFAE, Charlotte Agenda, all the Charlotte-centered facebook groups--everyone will say that you all, the people in charge, could have seen this coming.

I am beyond baffled and stricken that this would even be considered in our City. They can free-speech all they want online or in their homes or whatever, but no way can they come onto our streets, when we are already suffering so much, just to stir us up and incite a riot.

I apologize for my language but this is just infuriating. I hope you understand.

Dear City Council Members:

As I am sure you are fully aware by now, AntiCom, which is a front for the neo-nazis and white-supremacists' groups, is putting out notice and planning a rally in Charlotte, NC, on December 28, 2017.

I understand we have the freedom of speech in this country; however, when a group is openly communicating and marketing on Twitter and other social media platforms to "Bring your torches, guns, armor, gear, and flags!" it is with full intent for violence.

A peaceful demonstration does not need torches, guns, armor, or gear.

I respectfully request you do whatever is necessary to prevent this group from holding their rally in Charlotte and allowing them to demonstrate with weapons that are solely used to harm and maim others.

With all my best,

I am not sure if it is a hoax or not, but Facebook and Charlotte Observer are sharing that a Nazi group is planning to protest and march from Marshall Park on December 28th. This is the same group that caused issues in Charlottesville. I love this city and all of its residents. Please do whatever you can to put a stop to this march and bring a peaceful solution for them to air their "grievances". Perhaps instead of marching, they can send a written manifesto to our city council, which we can debate democratically and then dispose of? We are still healing as a city from last year's riots. Please help us to NOT reopen those wounds by prohibiting these outsiders from protesting with a racially decisive message throughout our streets. Thank you! - [REDACTED] (proud resident of Charlotte, NC)

Ladies and Gentleman...

I am very concerned about this announcement on Twitter.

These are the same people that caused all the problems and bloodshed in Whitesville.

I realize that CMPD responded on Twitter that this group did NOT contact them for a permit. However....that doesn't change the fact that this group tweeted that they ARE going to rally. Perhaps they are not going to seek a permit?

I hope that the safety of Charlotte, it's citizen's, the businesses downtown are a consideration of yours. It should be. Our fine city has it's issues, but we don't need this hate brought to our city.

I am reaching out to you as a concerned citizen and asking that you give this your attention, that you stay on top of this...research and protect our community.

A peaceful rally doesn't include torches and guns.

Thank you for you time to read this .
