

Permit to carry holders from outside the state. All were carrying firearms and joined the protesters at the Governor's Mansion. Event organizers alerted police over concerns they did not fit in. They were briefly detained by police and after they provided proper credentials they were released (cooperative) They were interviewed by Unicorn Riot for approximately 25mins and stated they are "simply 2nd amendment gun right supporters" and were also anti-police and were here to support the victim who was a permit to carry holder.
