Subject: State Watch Center Dashboard for April 12 (attached)
Attachments: SWC dashboard 2021apr12.pdf

The **State Watch Center Daily Dashboard Briefing** has been attached to this email. This report consists of:

- A brief overview of current and anticipated hazards.
- A summary of recent activities.
- A link to the full **State Watch Center Situation Report**. The situation report contains “live” data that will refresh each time the app is opened, as well as static information that is updated no less than each operational period—or more often, as conditions warrant. The link to the situation report can be found in the Dashboard, and is also listed/linked below for your convenience.

The COVID-19 Dashboard is now updated & disseminated weekly. These reports will be updated each Wednesday & distributed with the Thursday Watch Center dashboard.

We encourage you to share this within the public safety community, but this is not a document intended for consumption by the general public or media outlets.

The information contained in this message is **For Official Use Only**, and is intended only for those who have been identified by the State Watch Center to receive it. If you are not the intended recipient, you are hereby notified that any dissemination, distribution or copying of this message outside authorized public safety entities is strictly prohibited.

The next briefing is scheduled for Tuesday, April 13th.

Sorry for the delayed response. I'm managing to have computer and internet problems simultaneously, but I think I've got them sorted.

The MRP looks really good. All I've done is add an arbitrary reference number to the top of the MRP for us. There's a space directly underneath if you want to add any sort of NSP tracking number.

Outside of that, it looks like we're just waiting for the personnel numbers.
