Crime Prevention Defined

The Arizona Crime Prevention Association supports the following definition of Crime Prevention:

Crime Prevention is the anticipation, recognition and appraisal of a crime risk and the steps taken to eliminate or reduce the risk.

Principles of Crime Prevention:

The National Crime Prevention Council has identified the following principles of Crime Prevention:

Crime Prevention is:

- everyone's business
- more than security
- a responsibility of all levels of government
- linked with solving social problems
- cost effective

Crime Prevention requires:

- a central position in law enforcement
- cooperation of all elements of the community
- education
- tailoring to local needs and conditions
- continual testing and improvement

Crime Prevention improves:

- the quality of life for the community and its residents

Mission Statement of the ACPA, Inc.

The mission of the ACPA is to focus attention on local, state and regional issues related to crime prevention and provide a forum for the exchange, coordination and teaching of ideas, concepts and programs pertaining to the reduction of crime.

Description of Programs and Services

The Arizona Crime Prevention Association (ACPA) has been providing crime prevention services to Arizona since 1977 and officially became a Corporation in 1993. The majority of the Board of Directors is made up of individuals working in law enforcement as well as some successful, local business and community members. All members of the Board serve voluntarily and no paid staff exists.

The purpose of the Arizona Crime Prevention Association is:

- To provide a forum for the exchange, coordination, and teaching of ideas, concepts and programs pertaining to the reduction of crime. This is done by offering a variety of specialized training and education sessions, meetings, conferences and webinars for the citizen's of Arizona as well as specialized training for law enforcement.
- To focus attention on local, regional, state and national goals and issues relating to crime prevention. This is done through the development and delivery of specialized public programs and focused public advertisement. This includes the production and delivery of educational television commercials distributed and aired statewide as well as interviews for newspaper and radio stations on current crimes and prevention methodology.
- To encourage extensive citizen and community involvement in the reduction of crime and criminal activity. Our organization does this through the hosting of various Citizen and Business Safety Forums. Offered annually in partnership with law enforcement throughout the state, these educational sessions provide an opportunity for individuals to gain knowledge about particular crime trends, programs, services and products. These sessions also gives individuals the opportunity to network with local police representatives.
- To develop strategies which promote crime prevention planning and implementation for Arizona citizens. Currently the ACPA, Inc. has developed a state database for distribution of police information to the general public and other valley police agencies called BoloCop. Through this program, the website allows law enforcement to easily distribute police related information and crime alerts directly to valley police agencies, focused business and community members via email, text and/or facsimile transmittal. The website is www.Bolocop.com with plans to expand nationally in the future.

The organization provides the following programs and services:

- 1.) Specialized training: The ACPA, Inc. recruits, develops and delivers training on a variety of crime related issues to sworn and civilian members of law enforcement, corporate loss prevention staff, civic organizations, government and citizenry of the state.
- 2.) Child Identification Clinics: In partnership with law enforcement throughout the state and the Center for Missing and Exploited Children, the ACPA, Inc. provides parents a laminated child identification card, as well as a cd of information specific to their child to include digital fingerprints, photos, video and audio files. These digital files can be easily emailed to law enforcement by the parents should it be necessary.
- 3.) Public Secured Shred: In partnership with law enforcement and various mobile shred companies, the ACPA, Inc. hosts public, secured shredding. This opportunity allows citizen's the ability to shred personal documents which reduces the chances of becoming a victim on identity theft.
- 4.) Crime Prevention Advertisement Campaigns: In partnership with law enforcement agencies throughout the state as well as various city cable and public television networks, the ACPA, Inc. produces and provides a variety of education and public safety prevention videos. These videos distributed through various police agencies assist in delivering messages to the general public about such current crime issues as the dangers of social networking sites, leaving property in your vehicle, theft of intellectual property and child safety.
- 5.) Statewide administration of a program known as BOLOCop, which allows police agencies to prepare and send crime alerts statewide to focused business and community members. BOLOCop.com will be launched nationally in the future.

ACPA Campaigns

- In 2014, the Arizona Crime Prevention Association created a brochure on the impact of Distracted Driving. The brochure includes information from www.Distracted.gov to explain the dangers of taking your eyes off the road for any amount of time. A sticker is included to remind drivers “One Text Or Call Could WRECK It All”. Members can contact any member of the Executive Board to receive free copies.

- The Arizona Crime Prevention Association is partnering with **BikeGuard**, a free bicycle registration program providing free **Asset Tags** to assist in identifying your bicycle. Many cities may provide a similar service, but in most cases, the program is exclusive to the city. This makes it difficult for law enforcement in other cities or states and citizens to obtain owner information when the bike is found unless the bike has been reported stolen and the serial number was provided to law enforcement. Visit http://www.acpa.net/bike_registration.aspx or <http://www.myassettag.com/bike/> to learn more about this program or register your bicycle.

- Statewide administration of a program known as BOLOCop which allows police agencies to prepare and send crime alerts statewide to participating businesses and community members. The program has grown tremendously over the last year with 276 alerts sent and 41,291 visitors. The Arizona Crime Prevention Association schedules frequent conference calls and meetings with the vendor The Stevens Company to assess the functionality of the program. One detective who uses the program stated, "Great job on creating and retaining Bolocop! We use it almost exclusively here and it appears fairly user friendly. Thanks again!."

Be a Leader in Crime Prevention at the
Arizona State Capitol
Thursday, February 20, 2014 - 1700 W. Washington Street
(Senate Lawn)
11:00 AM – 2:00 PM

PHOENIX – Join the ACPA (Arizona Crime Prevention Association) and dozens of law enforcement partners as we work together to increase awareness of current crime prevention resources and programs for all Arizonans.

The event is open to the public and features dozens of resource and display tables with free materials on Crime Prevention Topics from A-Z. President Abe Lincoln will make a special appearance, along with Officer McGruff, and Deputy Do-Right. Members of the Arizona Legislature will also be in attendance for this special event.

The ACPA, made up predominantly of law enforcement, is a non-profit organization bringing together statewide agencies, local businesses and community members in an effort to prevent crime in Arizona since 1977. ACPA provides training across the state, hosts Child ID and Fingerprint Clinics and numerous public safety and prevention events throughout the year.

Most recently, the ACPA has embarked on implementing www.BOLOCOP.com, which is presently expanding from a statewide effort to a nationwide website platform (alert system). The BOLOCOP website utilizes the most up-to-date technology in providing police agencies an easy method of distributing crime related information to local community and business groups as well as linking possible crimes.

Please join with us as we work together to reduce crime in Arizona!

The National Crime Prevention Council in partnership with the Financial Investors Regulatory Authority (FINRA) created the 2013-2014 Crime Prevention Month Kit. On page 8, FINRA named the Arizona Crime Prevention Association as one of their partners who has worked with them to spread the word on investment fraud.

FRAUD PREVENTION IS CRIME PREVENTION

Pilot Programs in Washington State and Arizona lead the way

Crime prevention practitioners have proven to be powerful fraud prevention outreach partners at the local level. Since 2009, the FINRA Foundation has partnered with the Washington State Crime Prevention Association (WSCP) to deliver hundreds of *Outsmarting Investment Fraud* presentations to thousands of consumers. WSCP has also distributed tens of thousands of DVDs and *Fighting Fraud 101* brochures throughout the state. In 2011, the Arizona Crime Prevention Association joined the effort. The messages have resonated with local populations—and have even led to the discovery of scams. NCPC and the FINRA Foundation have now joined together to train even more fraud fighters. This year, we trained new partners in Alaska, Connecticut, Florida, Idaho, Kentucky, Montana, Nevada, New York, Rhode Island, Texas, Utah, Virginia, and Wisconsin. Join the cause!

GOT DRUGS? PRESCRIPTION AND OVER-THE-COUNTER DRUG COLLECTION RECEPTACLES ARE AVAILABLE AT A POLICE STATION NEAR YOU!

Thanks to a partnership between the Arizona Crime Prevention Association, Inc. (ACPA) and the Arizona Attorney General's office, 10 new drug collection containers have been purchased and placed in police department lobbies. In an effort to curb the misuse and abuse of prescription drugs, law enforcement throughout the state are working to provide a safe and secure location for collecting these unused, expired, and unwanted drugs by providing permanent collection containers. To announce, advertise and further educate citizen's about current locations, a Press Conference, ribbon cutting and social media ceremony has been scheduled to take place Thursday, July 31st, 2014 at 10 am in the Gilbert Police Department lobby, 75 East Civic Center Drive in Gilbert. The 20 minute ceremony will include a brief statement from Attorney General Tom Horne. Sam Burba from Not My Kid will also be providing a personal account of how prescription drugs changed his life and Stephanie Siete with Community Bridges will give further details about the current trends in the state. Karen Zeigler, Deputy Director of the Arizona Criminal Justice Commission representing the Arizona Prescription Drug Misuse and Abuse Initiative will also be available to assist with the ribbon cutting and for additional public comment.

Simultaneous social media "shout outs" on the available resources will also be sent to police agencies statewide to post at the same time as the event.

To ensure that residents and visitors know where the collection sites are, the ACPA, Inc. has created an interactive map www.acpa.net listing permanent collection sites around the state. Residents can now search for the nearest collection site by entering their address or simply by reviewing the map. These site links will also provide hours of operation as well as guidance on what can and cannot be dropped off at the collection point. The 10 new locations are as follows:

**EXPLORING SCHOOL SAFETY STRATEGIES TRAINING CONDUCTED BY
THE NATIONAL CRIME PREVENTION COUNCIL AND HOSTED BY THE
MESA POLICE DEPARTMENT**

The Exploring School Safety Strategies Course is a two-and-a half day course designed for those who work in the law enforcement and school administration arena. It provides a comprehensive approach to enhancing school safety and security. Participants will learn how to improve transportation, signage, and reduce fear for school safety. They will learn how to conduct a security safety survey and rely on all participants' expertise to make recommendations to enhance school safety and comfort of students and staff. The course will also explore the Crime Prevention Through Environmental Design (CPTED) principles and how they can be used to improve the safety and security of a school.

The Be Safe and Sound in School model will also be discussed. This model incorporates plotting a course of action to address issues that threaten school safety, such as bullying, vandalism, and drug use, and implement activities such as installing locks or security cameras, training students and staff, and conducting outreach campaigns in the community. The model builds safer schools through the inclusion of diverse perspectives, data driven plans, and customized solutions. This course will be conducted through PowerPoint presentations, lecture, group exercises, and interactive conversation.

This project was supported by Grant No. 2010-DG-BX-K036 awarded by the Bureau of Justice Assistance. The Bureau of Justice Assistance is a component of the Office of Justice Programs, which also includes the Bureau of Justice Statistics, the National Institute of Justice, the Office of Juvenile Justice and Delinquency Prevention, the SMART Office, and the Office for Victims of Crime.
