DeKalb County Issues Stop Work Order for Atlanta Public Safety Training Facility

DECATUR, Ga. – Today, the DeKalb County Department of Planning and Sustainability issued a stop work order for the proposed Atlanta Public Safety Training Facility.

According to the stop work order, on April 6, DeKalb County inspectors observed that the required silt fence and other erosion control measures were malfunctioning.

Per the land development permit (Permit #1245564) issued on Feb. 2, 2023, Best Management Practices are required “to control soil erosion and sedimentation on the Property during construction, including, but not limited to, silt fences, mulch filter berms, and temporary sediment basins.”

The stop work order remains in effect until further notice.
